### **San Andres started to knit Territorial Health Plan 10 for healthier islands**

The Ten-Year Health Plan that will be presented on November 22 by the Governor of the Department of San Andres which will be directed for the Departmental Administration will work in two directions that will seek to achieve health equity and human development in the Colombian Archipelago.

The Departmental Administration officials were gathered in a cross-sectorial committee which is led by professionals and technicians from various departments of the Departmental Administration in order to define planning and communication strategies with tools that will be outlined this initiative.

The consolidation of the Public Health 10 Plan was launched through resolution 1841 of March 2013, by which means will emphasize through three main routes such as: health promotion, risk management in health, and public health management. PDSP (Public Health 10 Year Plan) will be the health roadmap until 2021.
